Dear Customers,

Editions RICORDI is pleased to present you the catalogue GOLD 2010 with plenty of new references for all the passionate jigsaw puzzle players. A sensational number of 90 new references has been added to the largest Fine Art jigsaw puzzle collection in the world.

Among longtime featured artists as Dalí, Picasso, Mirò, Leonardo you can find new big names such as Frida Kahlo, Tamara de Lempicka, Renato Guttuso, Paul Klee, Ernst Max, Malevic and others, who enrich our puzzle range and grant you a touch of magnitude framed on your wall. Ancient colourful images from Byzantine, Tibetan, Coptic, Japanese and European Renaissance Art display their opulence anew being interpreted as puzzles. We are very happy and honoured to be able to provide you also the world's first jigsaw puzzles of Hundertwasser's ingenious art. Contemporary artists such as Giovanopoulos and a masterpiece of the Pop Art: Andy Warhol's Marilyn complete the variety of valuable new entries.

In 2010 Editions RICORDI introduces also another Art dimension: a compelling selection of Gothic and Fantasy Art which adds a hint of mystery to our traditional Fine Art collection. Renowned artists like Josè del Nido, Scarlet Gothica, JP Targete and James Ryman come together to unveil to keen puzzle players the dark side of the world full of feminine sensuality and morbid phantasies.

Last but not least, we have created for our youngest puzzle fellows a series of 250 pieces puzzles based on the fabulous images of American artist Judy Mastrangelo, called the Mystical Visions.

Editions RICORDI has been developing over the years puzzle works of great prestige and artistic value, reproduced with love for the details- a warrant for high quality.

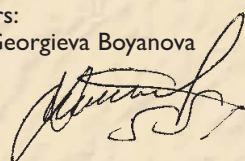

Next to the creative innovations in 2010, here you can find a sum-up of all technical advantages that distinguish our jigsaw puzzles:

- **90 new references** in 500, 1000, 1500 and 2000 pieces puzzles
- introducing a **new format of 250** pieces puzzles
- improved **pieces thickness**- 2,3 MM, pieces that really fit and don't break, made from special recycled cardboard
- improved **printing quality**, printed only on Art Paper (grained paper which ensures glare free pictures)
- improved **boxes quality and thickness**, built with a double stronger luxury cardboard
- improved **puzzle sizes** to fit into standard wood frames available on the market
- **revolutionary die-cut tooling**, always with no 2 pieces alike and with more performing interlocking design

Thank you for sharing your spare time with our puzzles!

Sincerely yours:

Hristiyaniya Georgieva Boyanova
Art Director
